# The Keswick II

The Keswick exhibits an expansive open floor plan. The family room flows into the kitchen and breakfast area. The kitchen supports a walk-in pantry and many optional kitchen layouts. The study creates an area for computer activities and includes a closet so that it is flexible as a first floor guest room. Upstairs, the focal point of the owner's suite is a huge walk-in-closet. The owner's bath has a soaking tub, separate shower, linen closet, and private toilet. In addition, this versatile plan has an extensive upgrade list to meet all needs and includes a side sunroom, a rear morning room, extension to family room, a second floor laundry, numerous gourmet kitchen layouts and 3-car garage.
